

SunBird Golf Resort and

Going **GREEN** together!

Phoenix Fibers collects clothes, sheets, linens, towels and shoes to be recycled. They shred the high cotton content textiles down to the fibers and their sister company, Bonded Logic makes **GREEN** insulation.

SunBird Golf Resort gets \$0.05 per pound of all textiles collected. What a great way to recycle and make money for your community! The textile recycling bin is located in the parking lot south of Waterview by the clubhouse.
